Spill occurred along pipeline right of way. Followup is necessary.

Date: 9/3/2014 **Status:** Inspection**Author:** Washek, Sandi**Updated Oil Volume:****Updated Salt Water Volume:****Updated Other Volume:****Updated Other Contaminant****Notes:**

Arrived on site at 4:00 p.m. The weather was overcast with wind out of the NE at 10-15 mph. The area of impact was located on the south side of 58th Street NE on the pipeline right of way. The area of impact is about 500 ft X 600 ft in very steep and hilly terrain pasture area and the pipeline right of way. The top of the hill, pipeline right of way, and pasture area have been scraped, and the soil has been piled up for disposal. The contractor is investigating a way to clean up the steep slopes. More followup will be needed.

Notes:

Contacted company rep on Sept 19 and was informed the area of impact had been cleaned up and soil removed for disposal. Company had scraped up the impacted soil and installed erosion control for the hill sides. Company will monitor area to ensure growth of vegetation next spring. Company did send a follow-up report to Oil & Gas.
